GARPEARL CONCRETE
CONSTRUCTION

At a glance

Garpearl Concrete gives solutions to both industrial and domestic clients by providing products that cover three pillars of its business namely , Roads and Infrastructural development , Sewer and Water reticulation and Home and Garden.

Roads and Infrastructural Development

- Our products(culvert pipes , shelverts ,kerbstones , bridge beams , electricity transmission poles) allows both commercial and domestic users to access roads for their day to day activities.

Sewer and Water Reticulation

- Proper management of our sewer and water system allows our society to have complete peace of mind . In this section we provide all manhole components(rings ,cover slabs , lids and valve boxes).

Home and Garden

- This section allows individuals to develop their properties through our product ranging from paving slabs , ornamental columns/verander pillars , lintels, wash tubs, swimming pool copings , wall copings , pier caps, brise blocks etc.

GARPEARL CONCRETE
CONSTRUCTION

Roads and infrastructural development

Dimensions

375,450,600,750,900,1200mm internal diameter x1250mm length

Shelverts

Types

2;3;4;6;8;10;15qsm

They are manufactured as half –arch shelverts

Shelverts are shell culverts.

They are designed to extend the benefits of factory made culverts which has been catered for by time consuming cast-in-situ box culverts.

GARPEARL CONCRETE
CONSTRUCTION
